

Castle base instructions:

1. Cut out your walls (front, back, right, and left. Don't cut off your tape tabs).
2. Cut out your castle base and roof base (square) pieces.
3. Lay out all of your pieces blank-side up.
4. Fold in your tape tabs
5. Tape your tabs to the inside (blank side) of the front and back pieces of your castle.
6. Tape your castle base at the bottom. Tape your roof base at the top.
7. Connect them! You should have a 3D castle base.

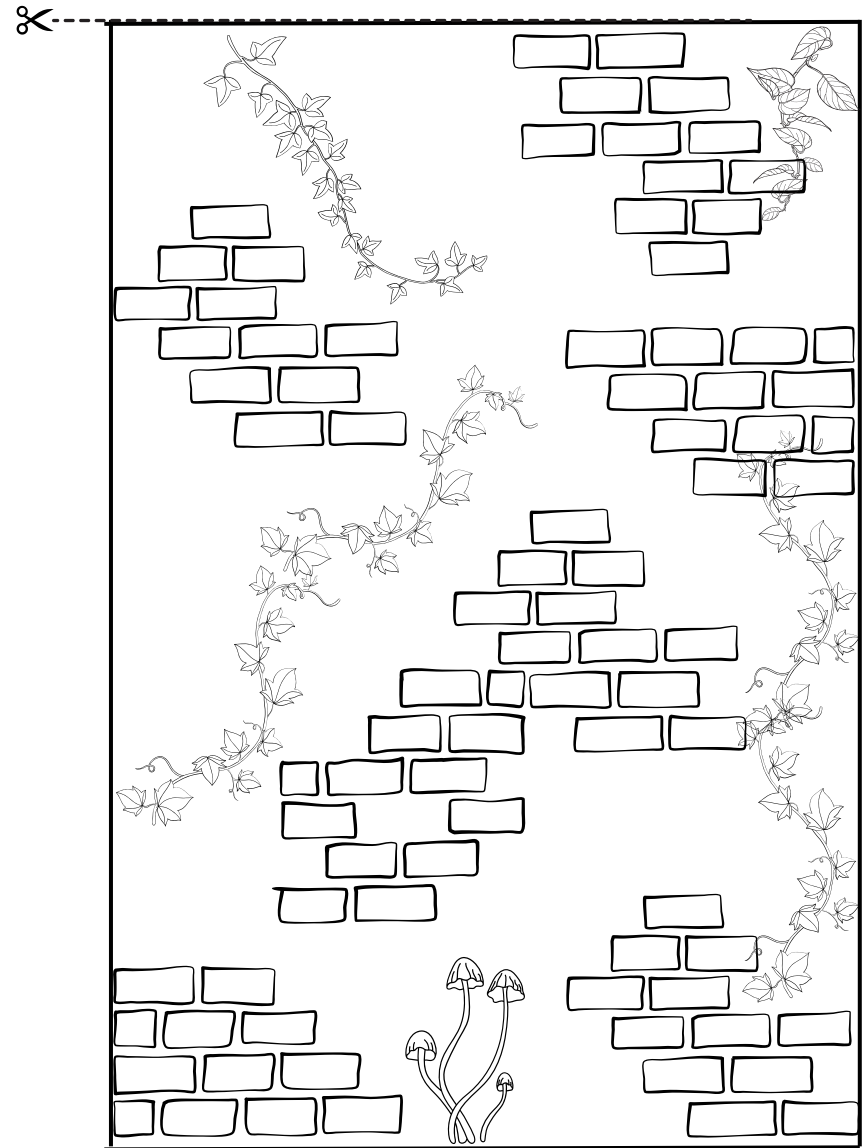

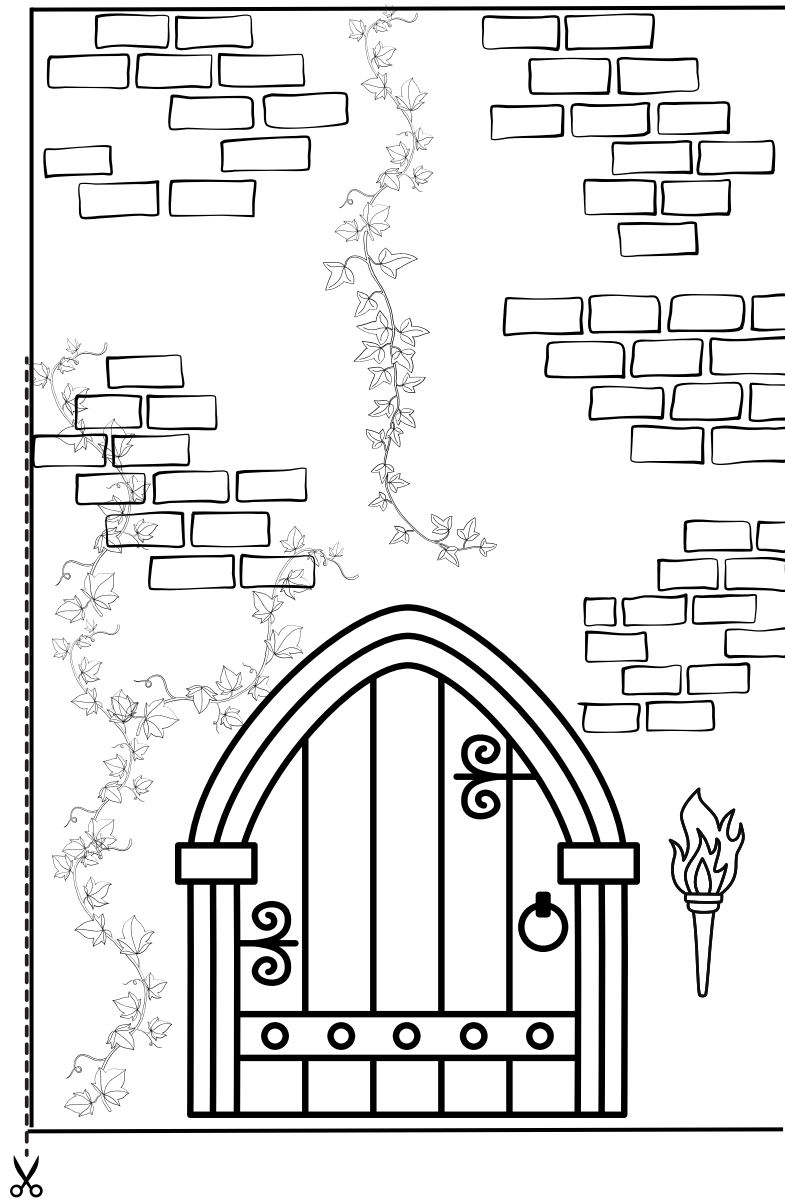

Castle towers instructions:

1. Cut around the outside of the tower piece.
2. Fold along all of the dashed lines.
3. Fold the tape tabs inward.
4. Put tape on the tabs.
5. Wrap the tower around and attach the last tab to the inside of the opposite edge.
6. Hold the edges together for a few seconds to ensure tape sticks.
7. Build and attach your tower roofs (Instructions on page 10).
8. Arrange and tape your towers to the top of your castle base. (Towers are varied heights. Taller towers go in the back).

2. Build A Magical Fall Castle

front

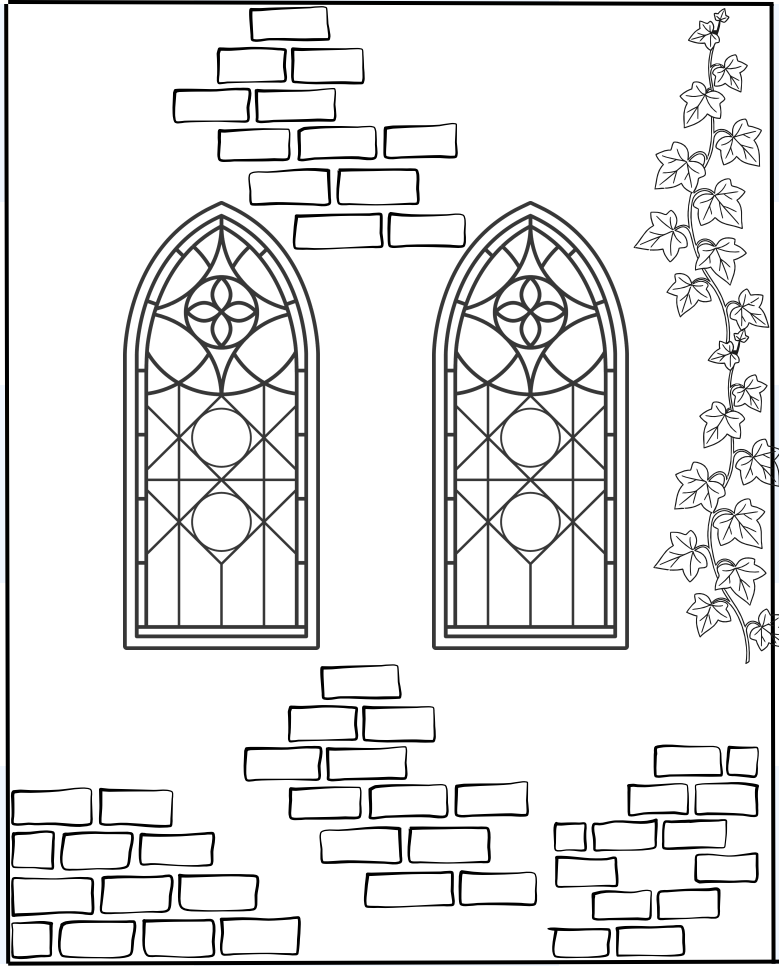

back

Tip: color your castle before cutting and building!
